Campus Connect Homepage

Campus Connect is still the same. User would click the “view degree report”

The screenshot shows the Campus Connect homepage interface. At the top, there is a dark blue header bar containing a dropdown menu labeled "Student Homepage" with a downward arrow, a search bar with the text "Search all content" and a magnifying glass icon, and a hamburger menu icon on the right. Below the header, the main content area is white. It starts with a greeting "Welcome, [Student Name]" followed by the question "What would you like to do?". Below this, there is a grid of eight white, rounded rectangular buttons arranged in two rows of four. The first button in the top row, "View Degree Report", is highlighted with a thick blue border. The other buttons are "Academic Records", "Student Resources", "Student Accounts", "Finacial Aid", "Profile", "Tasks", and "Manage Classes".

Student Homepage ▾ Search all content 🔍 ☰

Welcome, [Student Name]

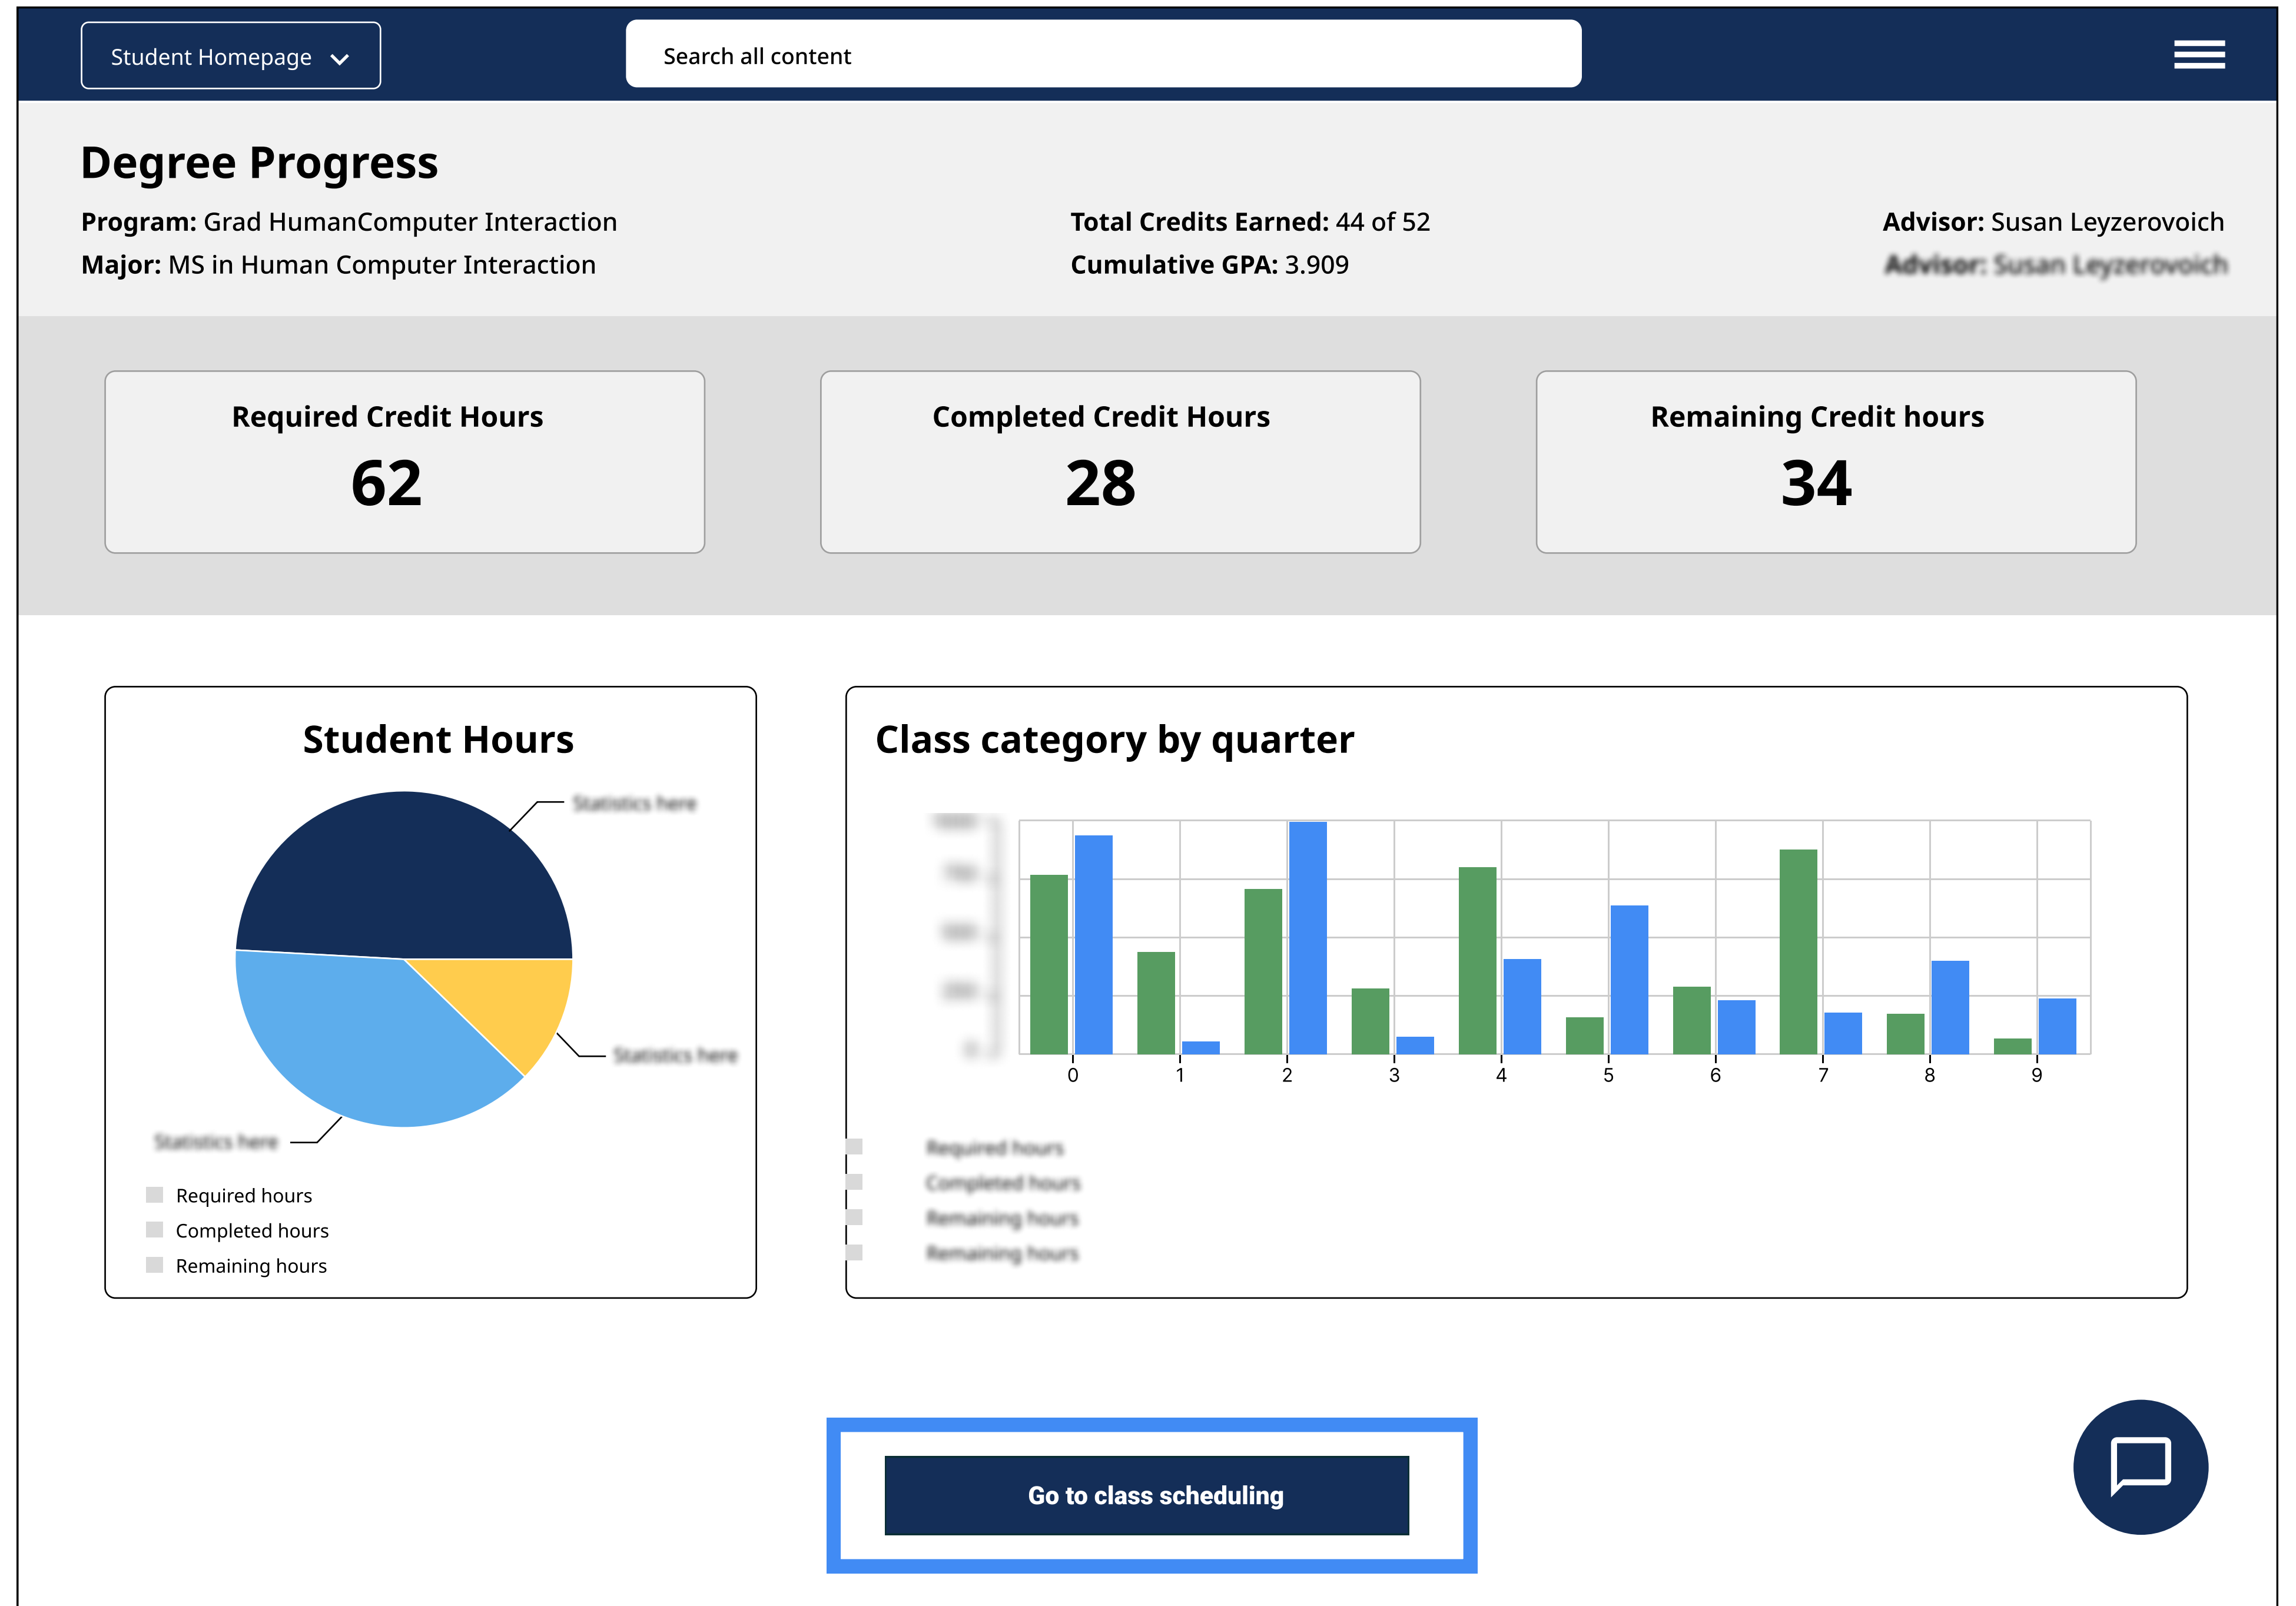

What would you like to do?

- View Degree Report
- Academic Records
- Student Resources
- Student Accounts
- Finacial Aid
- Profile
- Tasks
- Manage Classes

Degree progress page

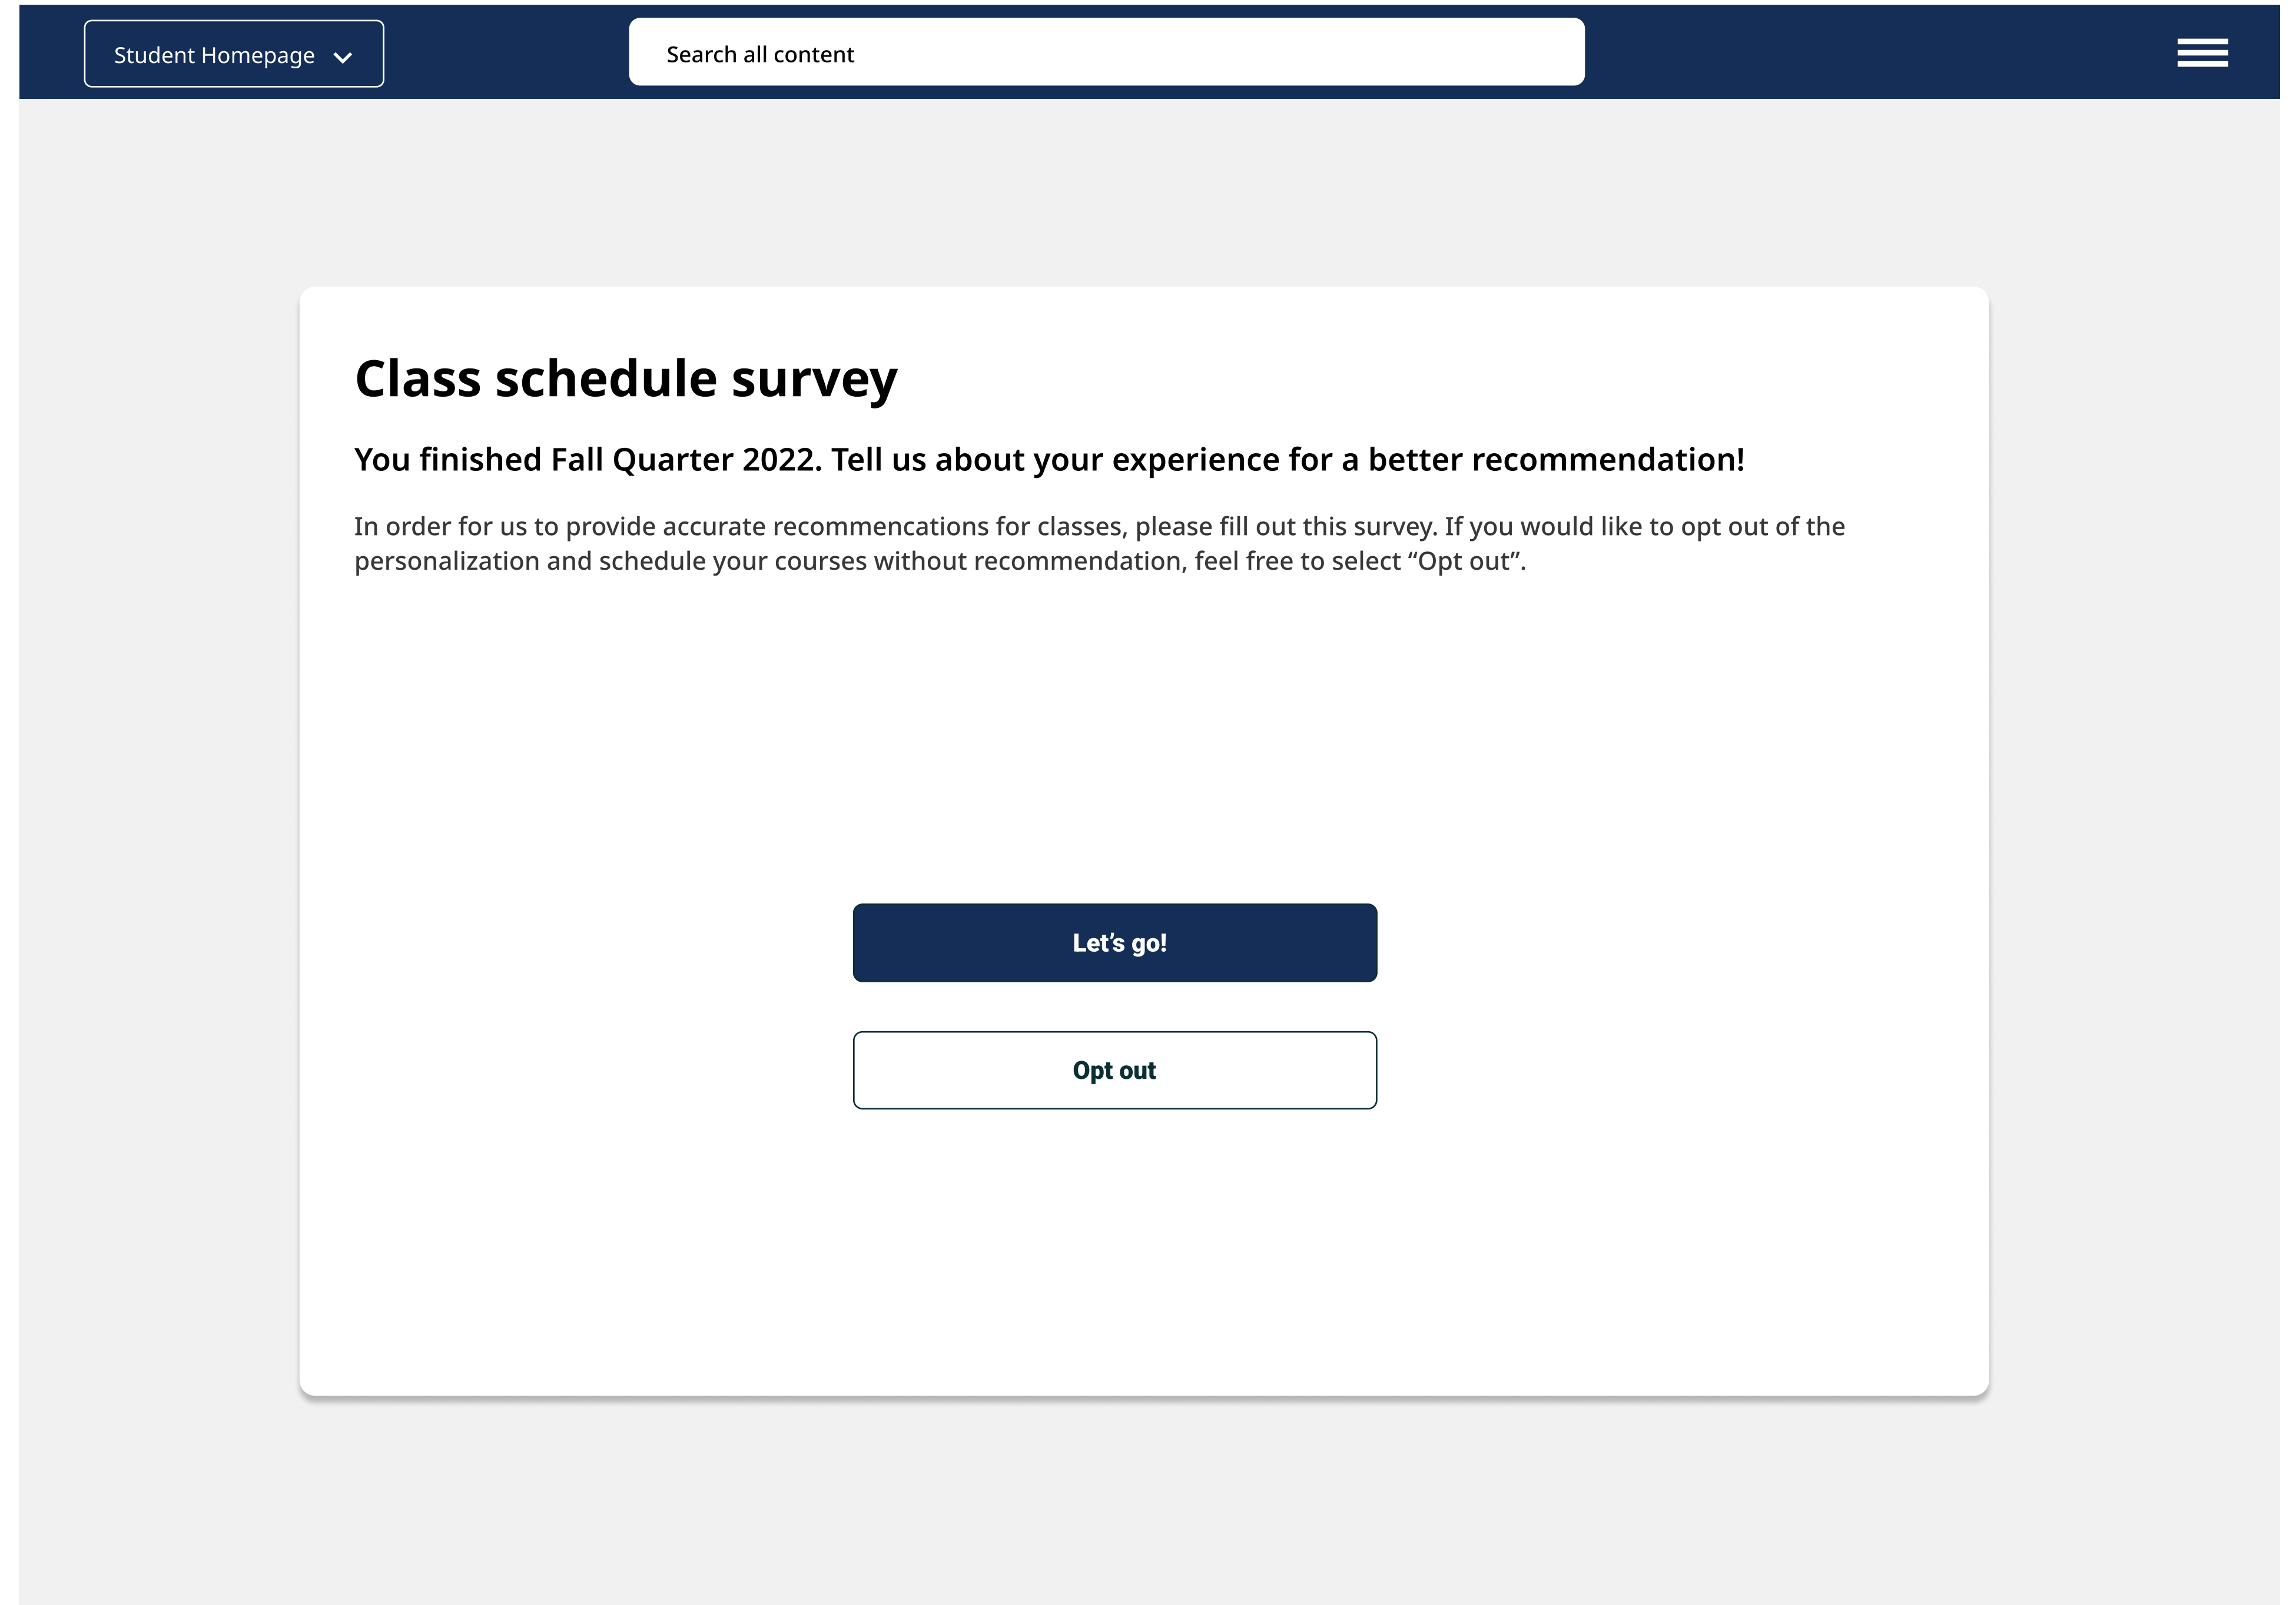

After clicking the degree progress users would see the degree progress dashboard, where they can view their required hours, completed hours, and remaining hours.

They can also see visuals of their breakdown of classes and can go to their class scheduling

Class schedule survey

Users are able to fill out a survey so the AI can provide recommendations based on their input. If they prefer to fill out their class schedule without the recommendation, then they can opt out of it.

The screenshot shows a student portal interface. At the top, there is a dark blue navigation bar containing a 'Student Homepage' dropdown menu, a search bar with the text 'Search all content', and a hamburger menu icon. The main content area is a light gray background with a white rounded rectangle in the center. Inside this rectangle, the title 'Class schedule survey' is displayed in bold. Below the title is a bold heading: 'You finished Fall Quarter 2022. Tell us about your experience for a better recommendation!'. A paragraph of text follows: 'In order for us to provide accurate recommendations for classes, please fill out this survey. If you would like to opt out of the personalization and schedule your courses without recommendation, feel free to select "Opt out".'. At the bottom of the white box, there are two buttons: a dark blue button labeled 'Let's go!' and a white button with a dark border labeled 'Opt out'.

Next

Class schedule survey

Next, the user would select all of the interests that they would have for the next quarter (in our research with one of the academic advisors, they mentioned that students are coming to them for advising for the next quarter or two, not their full academic career because their interests and understanding may change as the quarter goes on.)

Class scheduling

On th class scheduling page, users are able to see recommended classes (based on their previous answers) as well as classes grouped based on categories (prerequisites, foundational classes, etc).

Each class card has the name of the class, the class ID, it's availability, topic type (e.g. research, visual design,etc) as well as class pairings (based on our research)

Ask an Academic Bot!

When a user has a questions they can click the floating action button and ask questions to the academic bot. If the bot cannot answer the question (usually more complicated questions), it will suggest that the user contacts their academic advisor for help. (This is also from our research from student participants saying that they would feel comfortable asking an AI simple academic questions like “Does this class fill a requirement?” “Will I graduate?” etc) but would want to be able to contact a person if the AI gets stuck)

Ask an Academic Bot!

 Academic Bot

Hi there [Student first name]! How can I help you today?

- When am I graduating?
- When is the last day to register for classes?
- ~~When am I graduating?~~
- Something else.

Type something to send...   

Academic bot initiates conversation

Ask an Academic Bot!

 Academic Bot

Hi there, [Student first name]! How can I help you today?

- When am I graduating?
- When is the last day to register for classes?
- ~~When am I graduating?~~
- Something else.

When is the last day to register for classes?

The last day to register for Fall Quarter 2022 is **September 11th.**

I see you haven't registered for classes yet. **[Get started here.](#)**

Type something to send...   

When asked a question it can answer, the bot responds with an answer and an action

Ask an Academic Bot!

 Academic Bot

Hi there [Student first name]! How can I help you today?

- When am I graduating?
- When is the last day to register for classes?
- ~~When am I graduating?~~
- Something else.

HCI 565 may not be available by the time I need to graduate. What do I do?

I'm sorry. I don't think I can help with solving this. I see that your advisor is Susan Leyzervoich. Here is their **[email](#)**. It may help to send an email and schedule a call.

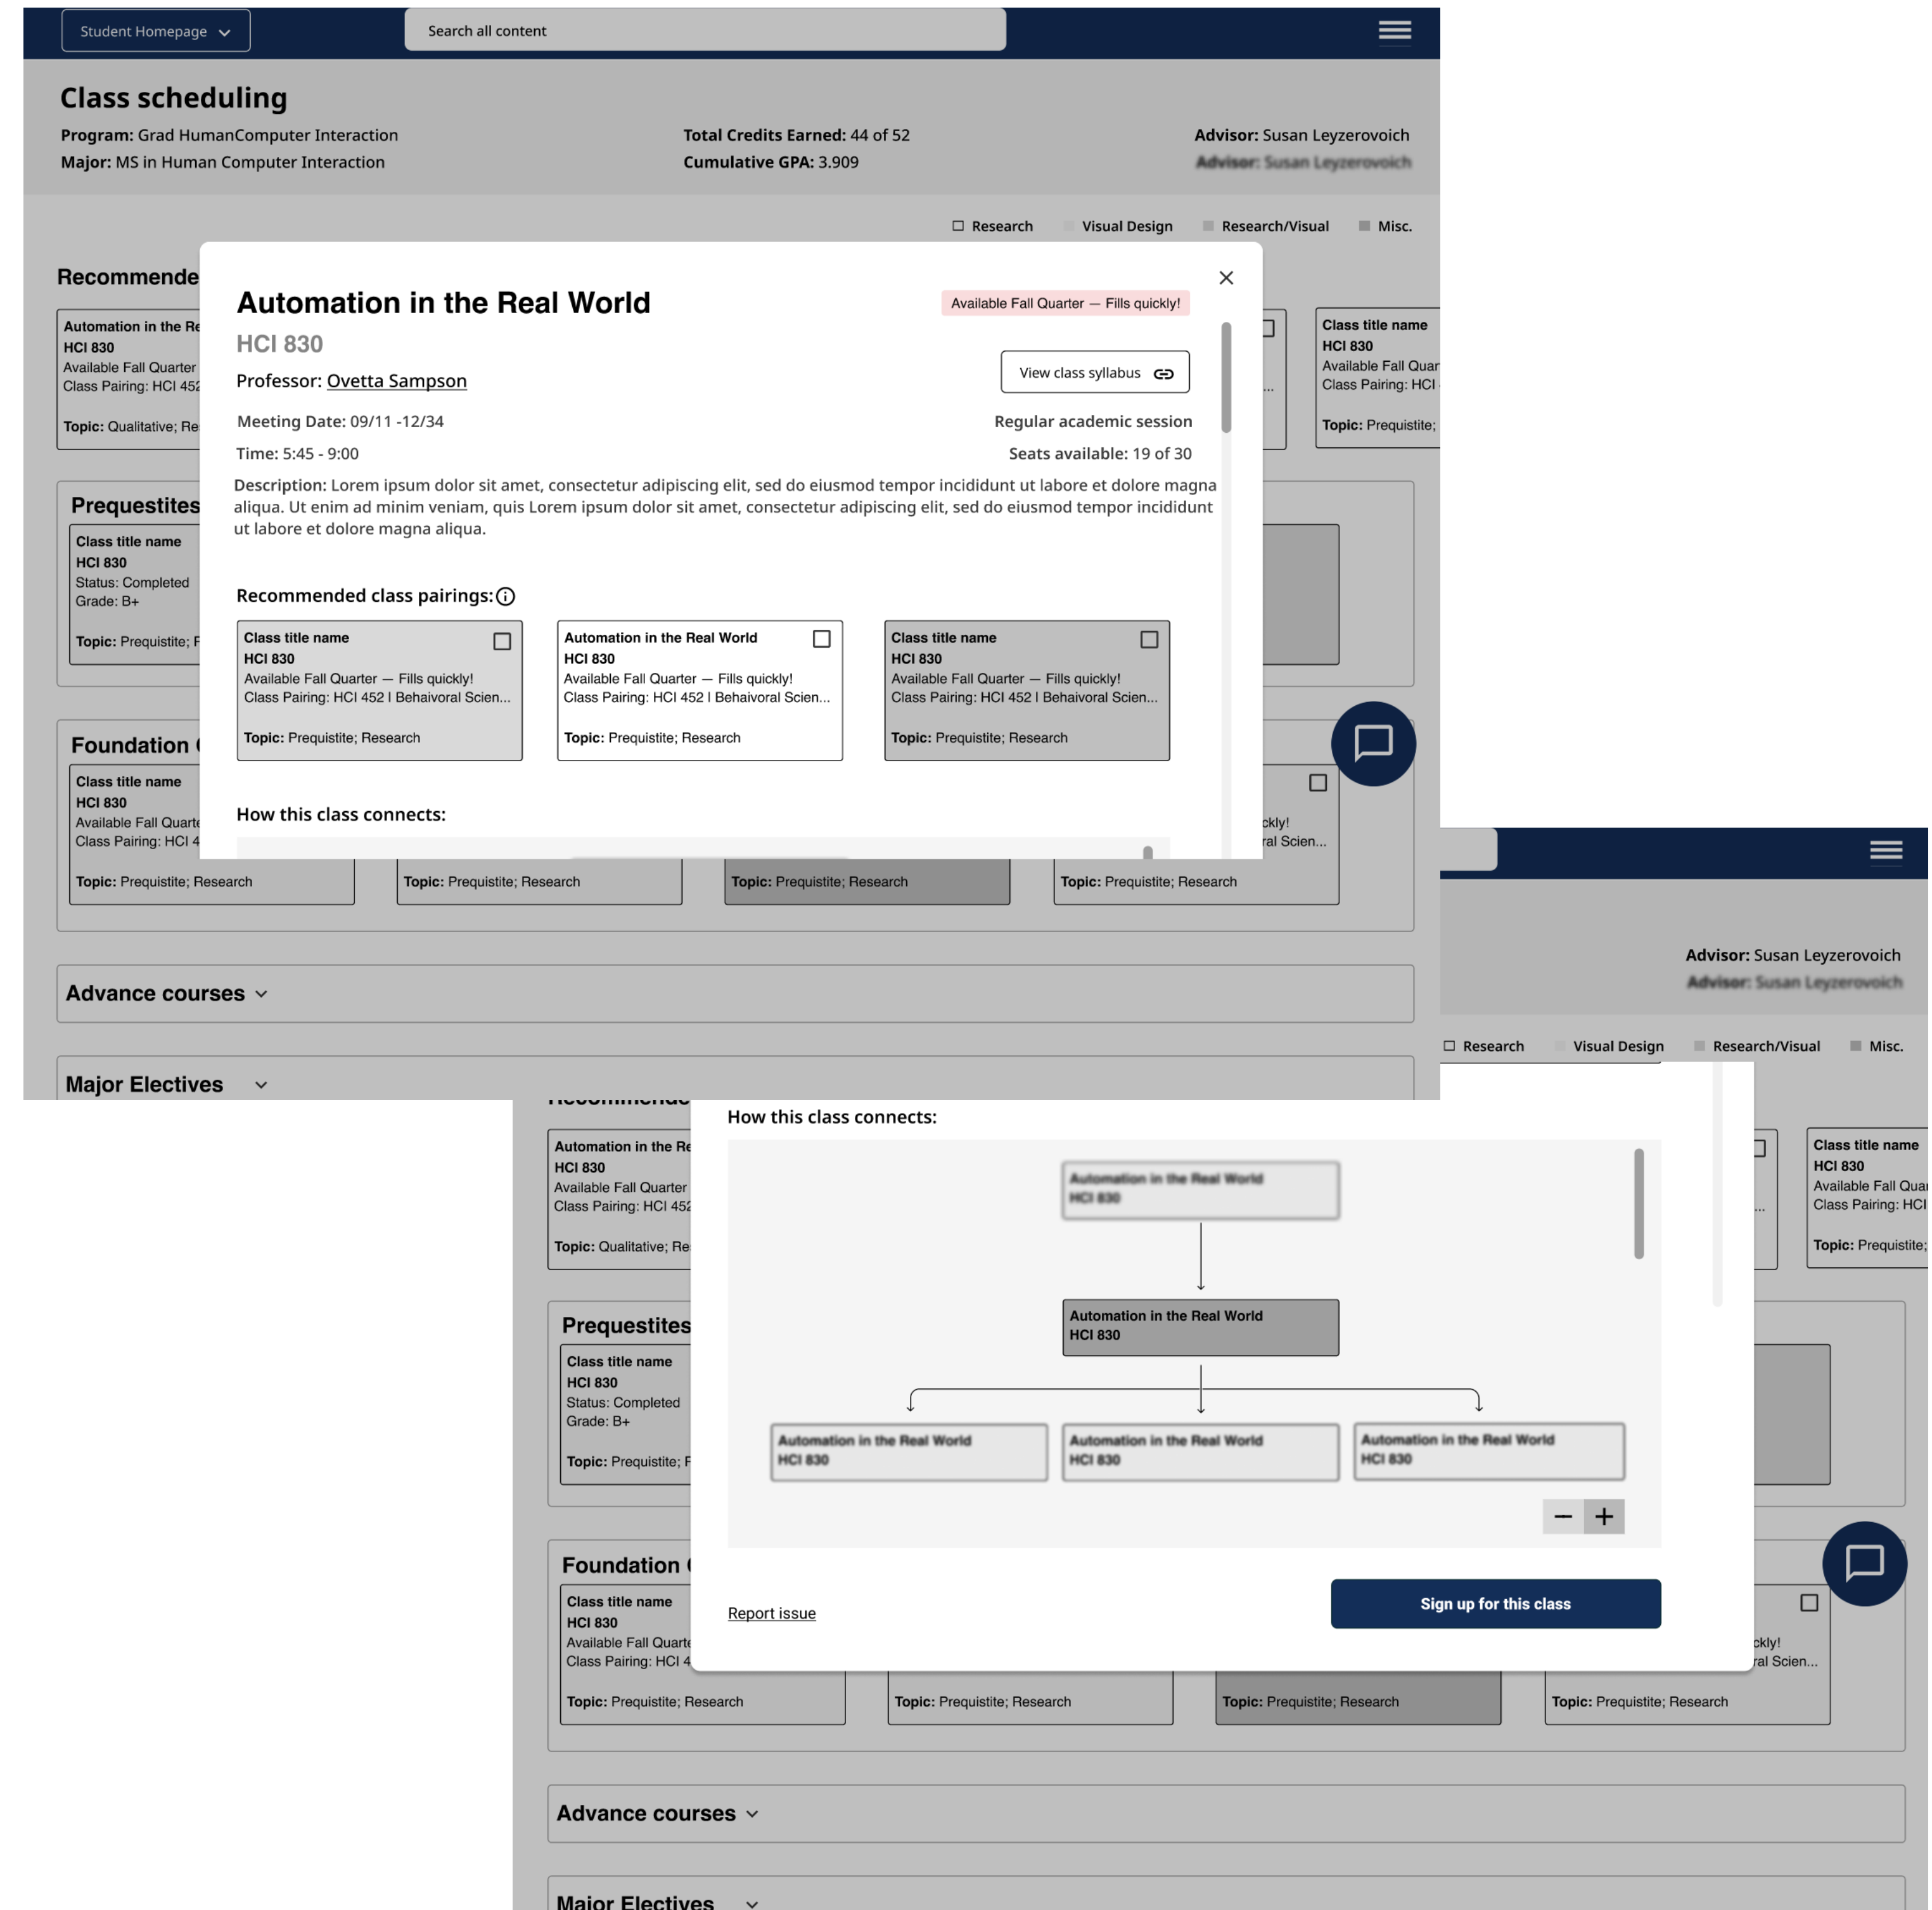

Type something to send...   

If the bot cannot answer a question, it will apologize to the user and give them a way to contact their advisor to ask their question to a human.

Class details modal

When a user clicks on one of the classes, they are able to see more information about the class:

- Basic information like the meeting times, a brief description (all information that is already collected in campus connect)
- The course syllabus
- Class pairings (based on academic advisor research)
- And a diagram that shows how the class may connect with other classes (if it's a prereq for other classes, if the information relates, etc).

Sign up for classes

Users are taken the course enrollment page that is already in campus connect.
